

Abdullah Odulate

Full-Stack Developer

abdullahodulate@gmail.com | +234 7033824496 | github.com/Abdul-luh/ | [Portfolio](#)

Professional Summary

Full-Stack Developer with experience building modern web applications across AI, commerce, analytics, and business platforms. Passionate about creating scalable systems, intuitive user experiences, and reliable software solutions that solve real-world problems.

Technical Skills

SK Projects — Frontend Developer (Contract / Freelance)

Lagos, Nigeria | 2025 – Present

- Contributed to **Klukoo**, a medical web application, by building responsive frontend interfaces and implementing dynamic user workflows using React, Next.js, and Tailwind CSS and integrating Supabase-powered backend services.
 - Assisted in AI integration workflows by correcting and refining generated UI outputs to improve usability and consistency.
 - Worked on **ORR**, developing reusable frontend components and API-integrated dashboard features.
 - Collaborated within a development team to debug issues, optimize performance, and improve user experience across applications.
 - Most projects delivered under private client agreements / confidential contracts.
-

Technical Skills

Back-end Technologies

- Languages:** JavaScript (Node.js), TypeScript
- Frameworks & Libraries:** Express.js, Next.js, API Routes
- API Design:** REST APIs, API Design Principles, Authentication & Authorization
- Databases:** PostgreSQL, MongoDB, Supabase
- ORMs & Tools:** Prisma

System & Architecture

- Back-end Architecture:** MVC Pattern, Modular Architecture
- Authentication:** Fetch API, Axios
- API Security:** Input validation, error handling, basic security practices
- File Handling:** Upload & processing logic

Additional Skills

- Testing:** Jest
- API Integration:** Axios, Fetch
- Soft Skills:** Problem-solving, system thinking, communication, adaptability, collaboration.

Front-end Technologies

- Languages:** JavaScript, TypeScript
- Frameworks & Libraries:** React.js, Next.js, Vite
- Styling:** Tailwind CSS, Responsive Design, CSS3
- State Management:** Zustand, React Context
- UI Development:** Component Architecture, Accessibility, Performance Optimization

Dev-ops & Tools

- **Version Control:** Git, GitHub
- **Deployment:** Vercel, Render, Docker, CI/CD pipelines
- **Build Tools:** Web-pack, Vite
- **Code Quality:** ESLint, Prettier

Projects

My Gym Planner – AI Fitness SaaS Platform ([Demo](#) | [Code](#))

Technologies: Next.js, TypeScript, MongoDB Atlas, Prisma, Redis, BullMQ, Mistral AI

- Architected AI-powered workout generation platform using RAG over vectorized exercise library.
- Reduced repeated AI generation cost and latency by implementing Redis cache-aside strategy.
- Built asynchronous job pipeline with BullMQ eliminating request timeouts during heavy AI processing.
- Implemented live progress streaming with SSE for real-time user feedback.
- Designed scalable schema supporting user metrics, goals, injuries, and progress tracking.
- Integrated observability stack using Sentry + Pino structured logs.

Best Eats – Multi-Vendor Food Commerce Platform ([Demo](#) | [Code](#))

Technologies: Next.js, TypeScript, PostgreSQL, Prisma, Stripe, NextAuth

- Built full-stack food delivery platform with customer, vendor, and admin role systems.
- Implemented cart isolation, checkout workflow, and Stripe payment processing.
- Designed scalable PostgreSQL schema for orders, restaurants, users, and payouts.
- Developed admin/vendor dashboards with analytics and operational controls.

NovaCart – Real-Time Analytics Dashboard ([Demo](#) | [Code](#))

Technologies: React, TypeScript, Vite, Tailwind, Recharts

- Developed multi-page analytics dashboard with live filtering, KPI visualizations, and reporting modules.
- Built reusable dashboard components and responsive layout system.
- Implemented advanced UI patterns including global search and dynamic data views.

Education

Bachelor of Engineering (Mechanical Engineering)

Lagos State University — Expected 2028

Certifications & Training

Frontend Web Development Certification

Innkeeper Training Institute | 2022

Computer Studies Certificate

Skill Acquisition Centre, Ayobo, Lagos | 2021
